

### REMARKS

Currently pending in this application are claims 1-77. Claims 78-89 are withdrawn without prejudice but may be re-filed in a divisional or other type of patent application or patent action.

Applicant has elected Group I and species 1, figs. 6 and 7 covering claims 1-77. Although the Examiner has indicated that Group I includes species 1 represented by fig. 12, species 2 represented by fig. 13, species 3 represented by fig. 14, and species 4 represented by fig. 15, Applicant believes figs 6 and 7 better represent the currently pending independent claims which cover methods for collecting, selecting and transmitting data available at a remote location to selected stations on a network. Figs. 12-15 cover various screen pop-up's similar to figs. 8-11.

If the Examiner has any other matters which pertain to this Application, the Examiner is encouraged to contact the undersigned to resolve these matters by Examiner's Amendment where possible.

Respectfully Submitted,
